EXPERIENCE

CO-FOUNDER, CODE WIZARD CODING CLUB | FOUNDING MEMBER

June 2022 – June 2025

- Spearheaded community growth through innovative coding sessions, events, and workshops. Formed strategic partnerships and collaborated with industry professionals. Increased club membership by 40% and fostered a culture of continuous learning

CAMPUS LEAD, ALGOZENITH CAMPUS PROGRAM | FIRST CHAPTER LEAD

Sep 2024 – May 2025 | AlgoZenith

- Organized workshops, coding contests, and guest lectures featuring industry experts. Mentored students in algorithmic problem solving and coding techniques. Led the program's growth by improving participation in knowledge sharing with algorithms.

BLOGGER AND CONTENT CREATOR | FREELANCING

- Created engaging blog content on national issues, geopolitics, technology, and defense history. Demonstrated research and communication skills to raise awareness.

PROJECTS

HUNGRY BEAR CAFETERIA WEBSITE | FRONT END | Visit!

April 2025

- Developed a responsive, mobile-first cafe website using HTML, CSS, JavaScript, improving user engagement by 40%
- Implemented interactive menu filtering and smooth scroll navigation, enhancing UX for 100+ daily visitors.
- Created a visual gallery, with CSS animations and optimized image loading for a 30% faster speed.
- Ensured cross-browser compatibility and compliance with accessibility requirements of the ADA.
- Took sponsorship from the owners and signed an official agreement between the developer and the cafe owner under the guidance of the college authority.
- Tools: HTML | CSS | JavaScript | Git | Responsive Design

DONOR LITE | FRONT END | Visit!

May 2025 – Present

- Developed a responsive front-end interface using HTML5, CSS3, and JavaScript with semantic markup and accessibility compliance (WCAG).
- Implemented donor search filters, user profiles, and registration forms with modular CSS (Grid/Flexbox) and cross-device compatibility.
- Structured the project for full-stack development, preparing for integration with authentication, database storage, and real-time search using JavaScript and backend APIs.
- Structured for full-stack expansion (authentication, real-time search) using JavaScript and RESTful API readiness.
- Tools: HTML | CSS | JavaScript | Git | Responsive Design

EDUCATION

DY PATIL AGRICULTURE AND TECHNICAL UNIVERSITY, TAL-SANDE

B.TECH IN COMPUTER SCIENCE AND ENGINEERING

Oct 2022 - Aug 2026

CGPA: 8.50/10

SKILLS

PROGRAMMING

C++, C, Java, Python, MySQL, HTML, CSS, JavaScript

TECHNOLOGY

Git, GitHub, VS Code, Microsoft Visual Studio, WordPress

SOFT SKILLS

Effective Communication, Problem-solving, Leadership, Teamwork, Collaboration, Adaptability.

COURSEWORK

UNDER GRADUATE

Data Structures, Comparison of Learning Algorithms, Database Management, OOPs, DevOps Methodologies.

ACHIEVEMENTS

Competitive Programmer on various CP platforms like Code Forces, Code Chef, and AtCoder.

CodeForces (CF): Peak rating of 769, Rank Newbie, 150+ problems solved.

CodeChef (CC): Peak rating of 1083, Rank 1 Star, 100+ problems solved.

LeetCode (LC): Solved more than 100 problems.

HackerRank: Completed 4 challenges and earned Golden Badges in C, C++, Algorithms, and Python.

Selected for the interview process of Google Developer Student Clubs (GDSC), reflecting initiative in campus tech leadership.

Selected as a Microsoft Learning Student Ambassador (MLSA) program.
